In order that all parties inter ested in the movement to improve conditions in local schools may have their say on the proposed measure, it will be submitted to the National Capital School Betterment Council.

Against 80 Per Cent Boost.

Mainst 80 Per Cent Boost.

While members of the Board of Education indorse the spirit prompting requests for a flat 80 per cent increase in salaries, it was decided to be unwise to ask Congress for so great an increase.

The decision to request immediate increases was made at a conference vestering between the District Com-

vesterday between the District Com-missioners, a committee of the Board of Education, and school officials. Those participating in this con-ference were District Commissioners

Kutz and Brownlow; Dr. John Van Schaick, president of the Board of Education; Dr. Henry B. Larned, Mrs. Coralie F. Cook and Dr. Abram Simon, members of the board; Su-perintendent of Schools Ernest L. Thurston and Assistant Superintendent Thurston and Assistant Superintend nts Stephen E. Kramer and Rosco

The proposed bill is to be drafted by a committee composed of Assist-ant Superintendent Kramer and R. O. Wilmarth, financial officer of the school system, and D. J. Donovan auditor for the District.

Sounds Harmony Note,

Van Schaick said the action of the Board of Education yesterday in going before the commissioners in going before the commissioners should not be taken as an indica-tion that the school board is not working in harmony with the citizens' committee. To emphasize this, he pointed out that as soon as the bill is prepared it will be submitted to the committee on salaries for discussion. for discussion, and for any changes which the committee believe may be needed, in the light of any data

The conditions of living in this city, and the fact that many teachers are leaving the schools for positions in commercial lines will be stressed in an attempt to get the

Sugar Restrictions Removed At All Sanitary Stores

Owing to supplies of sugar arriving more freely we are in a position to sell sugar in any quantity required up to 100 pounds. Boardinghouses, hotels and restaurants that have found it difficult to secure the necessary sugar supplies will also be accommodated. Present indications point to the sugar situation again returning to normal insofar as supply is concerned and we believe that we will be able to meet the demand of all customers.

SUGAR

An Explanation

Due to the variation in prices of sugar at this time we desire to explain the necessity of same. Any dealer who can purchase sugar at this time is in luck. There is at this present time no such thing as a market price on sugar. We have deemed it our duty to secure sugar from every possible source, and the consequence is that we have had sugar at a wide range of prices to offer you for the past few weeks. Each lot of sugar received by us is distributed to

our stores and priced to you at the usual margin of profit above cost. Hence you may find sugar at one price today in some one store and at a different price in the same store the next day. Or you may find sugar at one price in one store and at an entirely different price in one of our stores a few blocks away, depending entirely on how much time it takes to sell each lot of sugar in each store. We are using every means possible to secure

sugar to supply you constantly, and we trust our past reputation for fair dealing will be a convincing argument that any price asked by us is entirely

In a short time we look for the market to settle to its proper level, but in any event we feel that you need have no fear of a sugar famine, although prices will undoubtedly be higher than they have ever been
